NGO SY HUNG

Full Stack Developer

📞 0335072735   ✉ cornyhung@gmail.com   📍 Cau Giay, Ha Noi

SUMMARY

3+ years of experience in software development as a full-stack developer.

I am proficient in developing large-scale web applications, using PHP, Node.js, and JavaScript (Vue, React...) and other related fields. I specialize in implementing highly maintainable modules and have expertise in working with databases such as MySQL and MongoDB, including optimizing code and queries to ensure high performance.

My current focus is on leveraging skills to create more valuable and impactful products.

SKILLS

Programming Languagues:	• PHP, JavaScript, TypeScript, SQL
Frameworks/Platforms:	• Laravel, ReactJS, NextJS, VueJS (Vue 3), NodeJS
Database System:	• Mysql, Redis, NoSQL databases.
Others:	• Experienced in Integration and development of APIs
	• Experienced in structure MVC, HMVC
	• Experienced in deploying products using Docker and Nginx
	• Experience with Agile/Scrum/Waterfall methodologies
	• Understand SOLID principles, OOP and design partterns

WORK EXPERIENCE

Beetechsoft (07/2024 - present)

Fullstack developer (Laravel, NextJs, VueJS, Tailwind,)

- **Analysis, Coding & Development:** Develop and maintain web applications using PHP, Vue.js, and Next.js, ensuring performance and stability. Analyze requirements, estimate development time, and implement features based on customer orders.
- **Code Review & Quality Assurance:** Mentored and Reviewed team members' code, enforced best practices, and guided refactoring efforts to improve, performance, security, and maintainability.

Aladin Technology Fullstack Developer (2021 - 06/2024)

Fullstack developer (PHP, NodeJS, Javascript, Reactjs, Vuejs, Jquery, Ajax, Tailwind...)

- **Coding & Development:** Ensured and managed the quality of developed source code. Played a key role in both Backend and Frontend team's development. Optimized performance, ensured the security of applications and systems, and ensured website layout consistency across different browsers and devices.
- **Project & Technical Leadership and Teamwork:** Manage small teams (around 3-4 members) in the project. Provide support and collaborate with other team members and company members.
- **Stakeholder Communication:** Communicate directly with clients to clarify system requirements and provide technical solutions. Besides, Collaborate with BAs to analyze requirements and implement system features.
